Simply expand the frame, attach the hooks, and your Star Fabric Display is complete! The graphic simultaneously unfolds and stretches with the frame to produce a smooth, wrinkle-free image. The durable yet lightweight frame allows for quick and easy set-up, typically in less than a minute – no tools required! Our tension fabrics are printed using a strong, wrinkle-resistant polyester fabric.

20' STAR FABRIC STRAIGHT DISPLAY KIT | SFWKIT-3

This show-ready package includes:
(2) 8ft. Star Fabric straight pop-up frames and dye-sublimation graphic
(1) 5ft. Star Fabric pop-up frame and dye-sublimation graphic
(2) Medium hard cases with graphics

20' STAR FABRIC CURVED DISPLAY KIT | SFWKIT-2

This show-ready package includes:
(2) 8ft. Star Fabric curved pop-up frames and dye-sublimation graphics
(1) 5ft. Star Fabric pop-up frame and dye-sublimation graphic
(2) Medium hard cases with graphics
The dye-sublimation process transfers your custom full color image seamlessly and permanently to the fabric. The end result is a trade show display that is portable, user-friendly, and most of all – brilliant!

CASCADE RETRACTABLE BANNER STANDS

The newest addition to our family of quality displays. A low profile, slightly larger footprint that adds stability and a shiny chrome finish have made the Cascade an overnight sensation. Cascade banner stands are height adjustable and available in 4 sizes. Put them together side-by-side to create a graphic wall. All banner stands include a padded nylon carrying bag for easy transport and protection.

*All Cascade stands include a top quality nylon padded carrying case.

CASCADE RETRACTABLE BANNER WALL

Pull off end caps from silver step.

Push connector piece until it locks in position.

Connect.
SETTING UP YOUR RETRACTABLE BANNER

STEP 1.
Take components out of the case and put poles together.

STEP 2.
Insert pole in the cartridge, pull banner out of the cartridge.

STEP 3.
Tilt banner over and attach the top of the banner to the top of the pole.

STEP 4.
Return banner to upright position.
RETRACTABLE BANNER STANDS

Ease of setup and transportation make these one of the most popular choices for portable advertisement and presentations. A snap to setup; simply attach the pole to the base then roll the banner up and hook to the top of the pole. Retractable banner stands create visual impact with an easy-to-use lightweight and portable unit. Retractable banner stands are available in many sizes and may be put together side-by-side to create a graphic wall. All retractable banner stands include a carrying bag for easy transport.

- **Black**
- Graphic Width: 23.5”
- Graphic Height: 60”
CLASSIC BANNERS | BN-3E (BLACK)

If you need a simple and timeless display for your storefront or event, this sturdy stand is for you. The heavy-duty base balances with the weight of the stand and graphic perfectly while remaining light enough to transport. This stand features an adjustable pole height and gives you the option of displaying your message on one or both sides.

Graphic Width: 36”
Graphic Height: 36”–118”

LARGE FORMAT ADJUSTABLE BANNER STAND | JN5-8X12

Are you looking for a simple adjustable stand to create a large graphic back wall? If so, a large format banner stand might just do the trick. A pole pocket is sewn into the top and bottom of the banner for easy mounting. These great stands work beautifully in either one or two-sided use.

Graphic Width: 54” x 144”
Graphic Height: 36”–96”
Printed with dye-sublimation graphics, the stretch fabric banner stand offers clean lines and a professional look. Add dimensionality to your display with stretched fabric 3D shapes. The displays’ versatility makes it easy to add a light or literature shelf. Elegant, easy to assemble and ultra-lightweight, these displays feature a dye-sub, wrinkle-resistant polyester fabric custom graphic stretched over a sturdy aluminum frame.

The system is a snap to put together, taking only a few minutes, no tools required. Our custom hanging banner frames come in three different configurations: round, square and triangle. Our kits include hanging harness and a carry case for travel. The entire graphic is made from durable dye-sublimated fabric that can be washed by hand or machine washed on gentle cycle.

THE CUTTING EDGE - DYE-SUBLIMATION

The dye-sublimation printing process is the most effective way to ensure that your custom graphic looks the way it was meant to – with vibrant colors. This state of the art print technique involves transferring your custom image to an ink transfer paper by applying heat and pressure, the image passes from a solid to gaseous state without ever becoming liquid (the sublimation part of the process), and then solidifies in the E fabric. This technique creates true 1080dpi contrast, sharpness, and most of all, color.

Additionally, the dye-sublimation process doesn’t require the use of any solvents or toxins, and the fabric itself is comprised mainly of recycled, post-consumer materials. This makes dye-sublimation one of the most Eco-friendly printing processes today.

The end result is a seamless merge of image and fabric. The finished product is also weatherproof and machine washable. Images can be made in a single piece as large as 100 inches wide by 200 feet long. Larger sizes are available with a seam.
HOW TO PREPARE GRAPHIC FILES

SIZE
Make sure your graphics dimensions match the product you are purchasing. Layout guidelines can be downloaded from the product page on our website.

Bleeds: Not all products require bleeds; check guidelines for specific product requirements.

Fonts: Please convert all fonts to outlines.

RESOLUTION
Final size files are only required to be 7 - 150 dpi. You can view your file in Photoshop at 100% to see how it will look when printed.

Format: We accept files in the following formats: Adobe Photoshop (flattened .psd), Adobe Illustrator (.ai), .tiff, .eps and high resolution .jpg.

COLOR
Your print file must be in CMYK format. Colors can look drastically different when converted from RGB. We can color match with a provided PMS code and editable files.

However, we can only guarantee color accuracy when a printed proof is ordered and approved.

PROOFS
It is your responsibility to proofread all your text. Please proofread before you submit your graphic file.

We rely solely on your approval of the proof as final verification and acceptance of the project.
